

K-LOVE needs to stay on the air! As a resident of San Diego, I believe that we need stations like K-Love lift up and encourage people in our community. The Lord is working through the DJ's, the music and other encouraging messengers on K-Love. Personally, I have been moved to slow down and think more clearly before acting on my anger while I'm driving, due to listening to K-Love. They also have helped convince me that I need to vote. K-Love helps many people around the world every day! They are a positive, driving force in our community. They reduce the amount of dangerous actions, such as suicide, due to extreme emotions and feelings of hopelessness. Our community would be hurt deeply if K-Love were off the air. K-love pastors pray for their listeners at least four times a day, and speak with those who are in urgent need of help, and find them the help they need. Please, take this into consideration before deciding to create LPFM radio. I urge you to keep K-Love on the air in all of the cities they broadcast in. Thank You,
